Environmental Control Corporation Receives Approval of Second U.S. Patent

VANCOUVER, British Columbia - Environmental Control Corporation is pleased to announce the approval of its second U.S. patent. The Reverse Flow Catalytic Muffler, U.S. patent #7,018,590, will now accompany the Combined Catalytic Muffler, U.S. patent #6,622,482. Other intellectual property currently held by ECC includes two pending patents in Canada: the Reverse Flow Catalytic Muffler (patent application #2,448,648) and the Combined Catalytic Muffler (patent application #2,448,742); and one pending patent in Europe: the Reverse Flow Catalytic Muffler (patent application #02742591.7).

About Environmental Control Corporation

Environmental Control Corporation is a developer of Emission Control Devices for small Spark Ignition (SI) combustion engines. Typical devices within this spectrum include: walk behind rotary mowers, rear engine riding mowers, front engine lawn tractors, riding garden tractors, snow throwers, commercial turf mowers, chainsaws, hand held blowers, backpack blowers, trimmers/brush cutters, mopeds, scooters, snowmobiles, all-terrain vehicles and personal water crafts. Small SI engines produce approximately one tenth of U.S. mobile source hydrocarbon (HC) emissions and are the largest single contributor to non road HC inventories.

Notice Regarding Forward-Looking Statements

This news release contains "forward-looking statements," as that term is defined in Section 27A of the Act and Section 21E of the Securities Exchange Act of 1934. Statements in this press release, which are not purely historical, are forward-looking statements and include any statements regarding beliefs, plans, expectations or intentions regarding the future. Such forward-looking statements include, among other things, the approval of pending or future patent application.

Actual results could differ from those projected in any forward-looking statements due to numerous factors. Such factors include, among others, the inherent uncertainties associated with the development of an early stage company in the emissions control industry and its products and the entry into new markets for such products. These forward-looking statements are made as of the date of this news release, and Environmental Control assumes no obligation to update the forward-looking statements, or to update the reasons why actual results could differ from those projected in the forward-looking statements. Although Environmental Controls believes that the beliefs, plans, expectations and intentions contained in this press release are reasonable, there can be no assurance those beliefs, plans, expectations or intentions will prove to be accurate. Investors should consider all of the information set forth herein and should also refer to the risk factors disclosed in the Company's current and periodic reports filed from time to time with the Securities and Exchange Commission.
